## **The Junior League of Lufkin School Supply and Backpack Drive 2010**

The 2009-2010 provisional class of the Junior League of Lufkin is pleased to announce the completion of another successful Backpack Drive! Every spring, primary, elementary, middle and high school counselors throughout the county receive request forms and let the Junior League of Lufkin know the number of supplies needed for the following school year. This is an important project of the Junior League as its members do not want to see any child attending school without needed supplies and a backpack on their backs. With the tough economic crisis that our community is in, there was an even greater need this year. The provisional class was able to collect over 500 backpacks requested by the Angelina County Schools! We were also able to provide supplies for the children to begin the 2010-2011 school year! Thank you to all who made this event a huge success!!!
